CONCLUSION

CLING TO THE STANDARDS

BLOOMFIELD PUBLIC SCHOOLS

BLOOMFIELD, NEW JERSEY

SENIOR HIGH SCHOOL 160 BROAD STREET

HARRY M. RICE
Principal

CHARLES E. MORGAN
Vice Principal

PETER WILSON
Assistant Principal

To the Members of the Class of 1960:

It is somehow appropriate that you should select some of the sayings of Confucius, a great Chinese teacher, as division page keynotes of Memories 1960. Moderation, humility, the worth of the individual, understanding, wisdom---these are a part of a long Chinese tradition, rooted deeply in each succeeding generation's family groups. These teachings and these values can be respected, for they stand out in sharp and clean contrast with the materialistic, state-directed Communist totalitarianism which presently rules the lives of the more than six hundred million Chinese people on the mainland of Asia.

Americans have chosen the way of freedom based on moral and religious beliefs which view the philosophy, aims and methods of Communism as foreign to the values of the Founding Fathers, of our own fathers, and of ourselves. Let us cling to the standards and values of Washington, Jefferson, and Lincoln, lest some day these values endure only in books and dusty records and not in the lives of men.

For the entire staff, and myself, I wish you Godspeed.

HARRY M. RICE Principal

BLOOMFIELD SENIOR HIGH SCHOOL BLOOMFIELD, NEW JERSEY

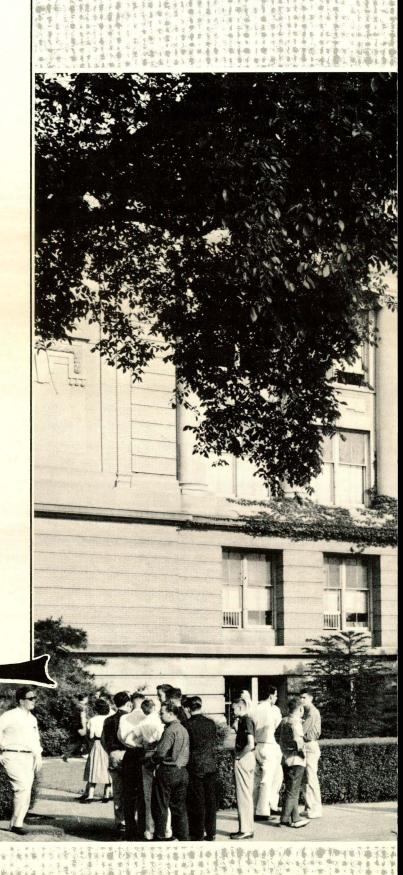

FOREWORD

MEMORIES '60 has chosen for its theme "The Wisdom of the Orient." The practical wisdom of the Oriental peoples is expressed in the teachings of Confucius. These teachings are still followed, and the quotations of Confucius are applicable to today's life.

The bamboo on the cover symbolizes the nature of the Oriental peoples. Resilient, bamboo bends with the wind; when the wind ceases, it stands tall again. The people of the Orient bend under the weight of floods, famine, wars, and repression. Yet, from hardship they develop endurance.

Unique in its simplicity, Oriental art expresses deep thought and emotion. It mirrors the outlook of the people. It is direct yet subtle. Simplicity and subtle humor are portrayed in our little character, Ben-Go.

A yearbook more than elaborates a theme; it echoes the time in which we live. In this modern world of unremitting tension and insecurity, we strive for the practicality, endurance, and simplicity that "The Wisdom of the Orient" offers.

TEACHERS

Excellent—the all-around worth of the B.H.S. faculty can be measured by that one word. Year by year they have relived the ideals and wisdom they share with us and have renewed their experiences and knowledge. Their manner and method of sharing will remain indelible in our memories.

"A man who goes over what he has already learned and gains some new understanding from it is worthy to be called a teacher."

—Confucius

ADMINISTRATORS

DR. HARRY M. RICE, Principal; MR. CHARLES E. MORGAN, Vice-Principal; MR. PETER WILSON, Assistant Principal.

During the past three years, we have come to know Dr. Rice, Mr. Morgan, and Mr. Wilson not only as excellent administrators, but also as friends to the entire student body. Their untiring efforts have made Bloomfield High School one of the best in the state and have directed its students along the paths to adulthood.

INSTILLED A PURPOSE . .

MRS. MYRA SEELY

Fifteen years ago, when Mrs. Myra Seely began teaching at Bloomfield High School, no one could have foreseen the far-reaching effect which her personality would have on the school, teachers and students. As advisor for many of the girls' athletic clubs and as a teacher, "Ma" Seely has never failed to instill in her pupils a feeling of purpose and a realization of personal worth.

Mrs. Seely's way of being always involved in a project reflects her ardent desire to be of help to anyone, in any little way possible. Never did she seek praise or glory for herself. In her, both the students and faculty enjoyed a cheerful, competent, and meaningful associate. The seniors, other classes, and faculty of Bloomfield High School wish Mrs. Seely full years under the Florida sun.

Ahead, lie the challenges of the world; behind, the areas of preparation which molded the Class of 1960 for the strange climb to future heights.

As they leave the halls of B.H.S., the class cherish the thought of experiences and knowledge gained in learning to live. The various skills achieved in school by each individual will prove strong staffs in the ascent up the mountain of life.

"In all things success depends upon previous preparation."

-Confucius

MR. FRANK BRUNETTO

Mr. Brunetto, the boys' competent guidance counselor, joined us at the beginning of our junior year. Mr. Brunetto replaced Mr. Knakal as our sophomore boys' counselor.

Replacing someone is a difficult job to perform, but Mr. Brunetto came through with flying colors. His understanding and patience helped the senior boys to overcome their problems. Through his expert guidance, he helped many of the boys to mold their future.

The Senior Class would like to thank him for his untiring efforts which helped us through our memorable years at Bloomfield High School.

CLASS ADVISORS

MISS BARBARA VAN PATTEN

Along with good times, high school years bring problems. Miss Van Patten, class counselor, was someone to whom the girls could turn for advice and reassurance. Her friend-liness and pleasant manner made it possible to discuss both scholastic and personal matters. Often it was refreshing to sit and chat with her, for no matter how busy, she found time to speak with a girl. This past year, when many were confused about colleges and careers, she cleared a way in their minds. The seniors know that future classes will find in her the same warm-hearted friend that they did.

CURRICULUM

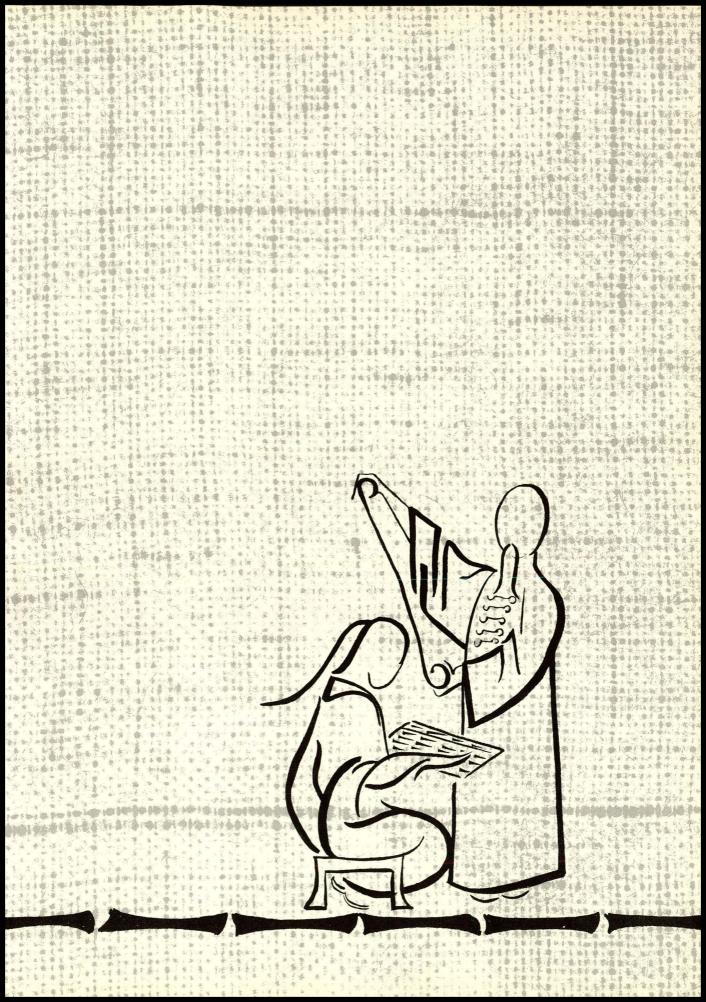

Thought and learning—the seeds which are planted in the minds of students. Reflecting upon the past twelve years, the graduating class realize that these last years have given them independence and responsibility.

Through the B.H.S. curriculum, planned in accordance with the many modes and levels of American life, the future citizens of a modern nation have attained their goal, "Learn to Live."

"Learning, undigested by thought, is labor lost; thought, unassisted by learning, is perilous.

SECRETARIAL PRACTICE prepares students to communicate in business.

THE READING PROGRAM aids in rapid understanding of written ideas.

CONVEY IDEAS

Communication aids students in every facet of their daily lives. In a business or collegiate world after graduation, the ability to comprehend written words is indispensable; knowledge of a foreign language, useful; and skill at translating personal thoughts into understandable English, imperative.

An attempt at clarified self-expression is made in teaching communication—the speaking, reading, and writing of foreign languages as well as English. Included under this category are the business forms of English, such as typing and stenography. All are intended to better the understanding between man and his neighbors through clearer presentation and interpretation of thoughts and ideas.

ENGLISH IV students discuss the development of man's ideas.

LATIN IV enables us to communicate with the literature of the past.

FRENCH IV provides an opportunity to become fluent in the use of an international language.

Related Arts, as the name implies, relates to the other fields of learning available at Bloomfield High. This field is intended to enlarge upon and improve the knowledge gained in required subjects, as English or mathematics. Students learn to employ their skill on manual, cultural, or expressive tasks.

The work in Related Arts is just as difficult as in any other department, although students may not realize it at first. In addition, the skills acquired may provide background training for future jobs or careers.

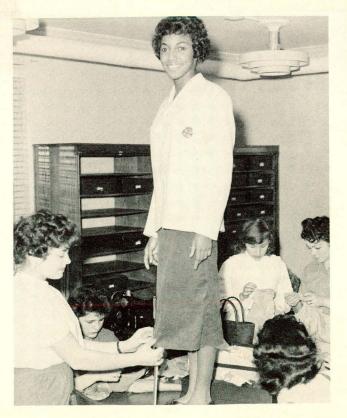

CRAFTS employ manual skill and creative ability.

RELATED ARTS EMPLOY SKILLS

MANUAL TRAINING develops skills for future careers.

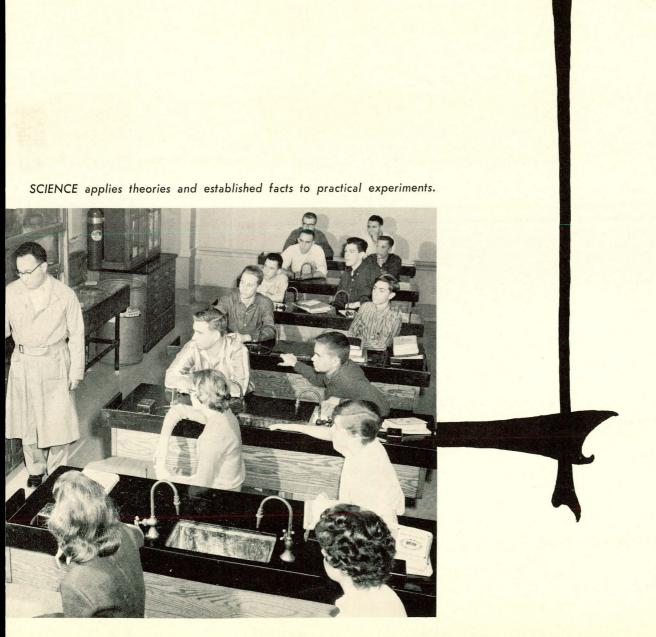

HOMEMAKING provides practical experience for the home.

MATH 12 offers the opportunity above and beyond high school mathematics.

MATH AND SCIENCE ENCOURAGE LOGICAL REASONING

As verbal skill and physical abilities are necessary for a well-rounded student, even more so is an apt mind. In studying mathematics and science, a pupil is taught to reason for sensible, relevant conclusions. Here is taught an approach to the abstract, the step by step proof of scientific and mathematical theory, and the practical application of scientific knowledge. At Bloomfield High School a student may select a course which is slanted either toward the practical or toward the pure research as best suits his future purpose in life.

ACTIVITIES

"Do not worry about people not knowing you, but strive so that you may be worth knowing."

-Confucius

In extra-curricular activities each student is given his chance to shine. A well-rounded personality is achieved by the advancement of ideas and the recognition gained from them. Social skills and the capacity for getting along with others are fruits of participation in a club or activity selected by the student.

THEY MAKE MUSIC

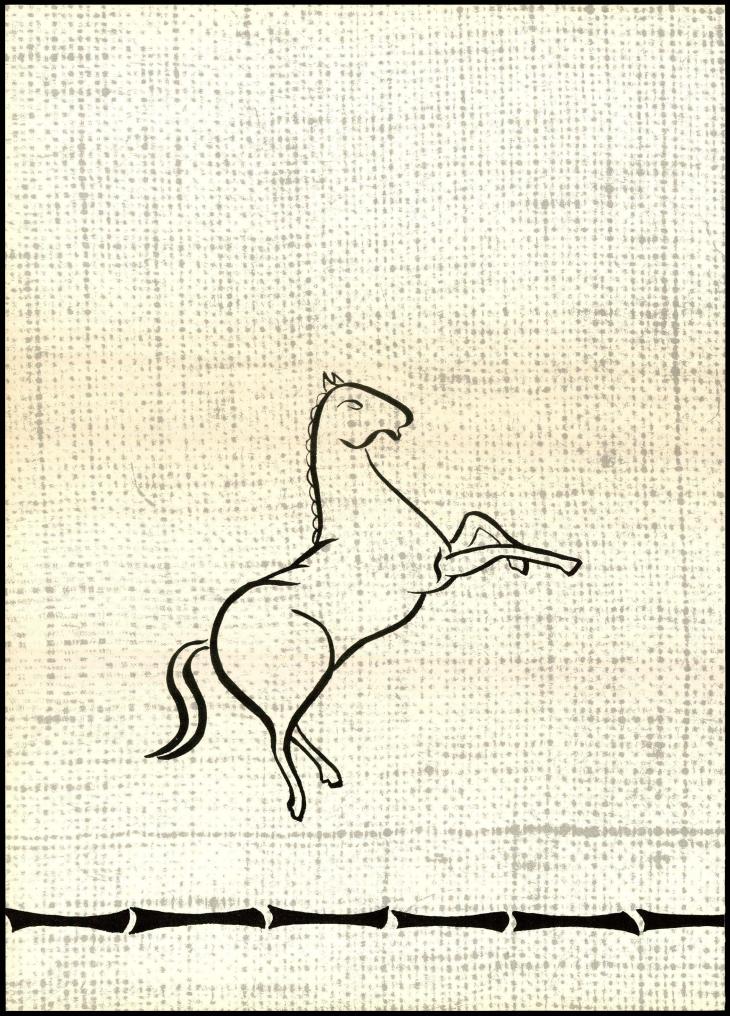

The halls are alive with the sound of music. Just listen. Anywhere, anytime in B.H.S. you can hear one of the musical organizations in chorus. If the Serenaders, the Concert Band, the Orchestra, or the Varsity Choir aren't rehearsing, then the Musical Monday Club is probably in session.

SPORTS

Thoroughbreds who possess the smooth co-ordination of mind and body are an inherent part of a good sports program. They strive by achievements of skill and strength and by a display of good sportsmanship to bring honor and recognition to their school. Through the spirit of friendly competition they make new friends, learn different ideals, and experience the thrills of a universal language: sports.

In talking about a thoroughbred, do not admire his strength, but admire his temper.

DRILL TEAM MARCHES AT GARDEN

Left wheel, march—the Scotties are off on another intricate routine. TRAIN AT SHELTON GRIDDERS

The highlights of the 1959 Bloomfield High School football season came at the beginning and the end of the schedule. Over all, the Bengal gridders compiled a 2-6-1 record; however the squad was better than the record indicates.

Taking advantage of the long period between the beginning of practice September 1 and the late opening of school, Coach Joseph Bogusz inaugurated an innovation in BHS sports annals by holding a pre-season football training camp at Shelton College in Ringwood,

N. J., which was attended by fifty Bengal gridders.

In the initial contest of the season, the Bengals upset powerful Seton Hall 12-7. The following Saturday Belleville edged Bloomfield 13-12. The team then gave state champion Clifton the toughest game of its season, holding it to a score of 14-0. After this, the Bengals were upset by Patterson Eastside 20-14 and tied by Kearny 7-7 in a game postponed by rain. Bloomfield now picked up its second victory, trouncing West Orange 18-0; then lost a 14-12 thriller to Irvington, a game in which three touchdowns were made in the final one and one half minutes of play.

Winding up the season, Bloomfield lost to Montclair in what was

certainly the closest game of the season.

BENGAL FIVE DOES IT AGAIN

The Class of 1960 attended Bloomfield High School during the Bengals' fantastic winning streak of 64 games, but the most memorable team is the B.H.S. Cinderella cage squad of the 1959-60 season.

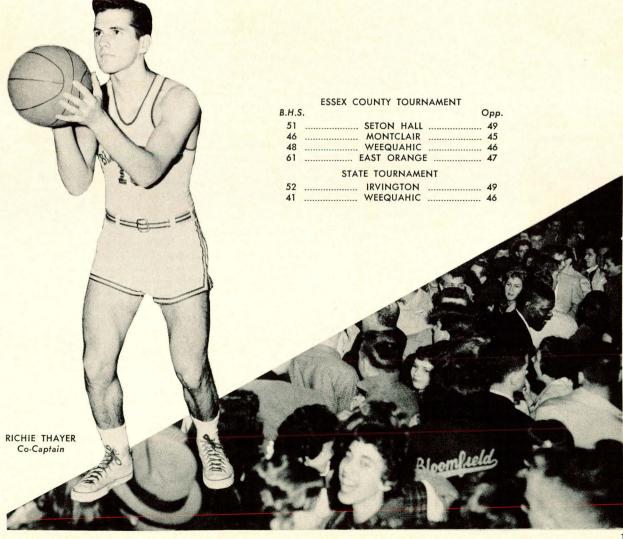

After a lukewarm season which produced eleven wins and six losses, with a tie for the fifth place in the Big Ten Conference, the Bloomfield team went into the fourteenth Essex County Tournament unseeded. With tremendous spirit and determination, the expert tutelage of Coach George Cella, and a little bit of luck, the Bengal "whiz kids," as they were dubbed by local newspapermen, pulled four straight upsets to emerge dramatically as the first unseeded team in the history of the ECT to win the tourney, and the first school to capture the crown four times.

Weequahic, whom the Bengals upset in a double overtime game during the ECT, ended the Bloomfield season with a 16-7 record by eliminating the Bengals in the second round of the state Group IV Tournament.

It is interesting to note that during the freshman, sophomore, junior and senior years of the Class of '60, Coach Cella's team compiled the enviable record of 82 wins while losing only ten contests, at the same time winning three league, three county, two sectional and two state championships.

SLUGGERS TAKE BIG TEN CONFERENCE

B.H.S.'s 1959 baseball team made an impressive record of sixteen wins and four losses. The team, which won the Big Ten Championship, was coached by Joseph Conn. It was the first Bloomfield baseball team to win a championship since 1952, when Bloomfield won the State and Greater Newark Tournaments. Lettermen returning to boost the team this year are Richie Smith, Richie Thayer, Angie DeRosa, Fred Laudati, Charlie Jeglikowski, Artie Sauer, Doug Smith, Dennis Bailey, Dennis Donnelly, Bob Guglielmino, and Pete Halstead.

BHS MEN MAKE TRACKS

Bloomfield's 1959 track team ended the season with a 5-5 record. The team, under coaches Peter Wilson and Marshall Butler, won the two mile relay in the Big Ten Relays, the mile relay in the State meet, and took seventh place in the state meet. The prospect for 1960 looks good with hurdler Jim Meyers, pole vaulters Howie Blackwell and Ron Weber, half miler Ted Demarest, high jumper Rod Garnes, and discus and javelin thrower John Alves, among the returning lettermen.

The 1959 BHS cross country squad ended the season with a 5-6 record. The team, coached by Marshall Butler, and captained by Jim Myers, came in second in the Big Ten meet, fifth in the county meet and thirteenth in the state meet. Most valuable runner was Roger Ericson; Fred Rowe was voted most improved.

To the Class of 1960:

The teachings of Confucius, the most famous Oriental sage, are as applicable to life today as they were thousands of years ago. Relative to life at BHS, the sayings chosen for the divisionals of MEMORIES '60 especially stress the qualities of sportsmanship, honor, and scholarship, ideals toward which we should all strive.

To those of us who have worked on MEMORIES, the many hours spent in planning, learning, and working represent one of the most memorable facets of our high school lives. We sincerely hope that we have produced a record of the time spent at BHS which will bring back happy memories for many years to come.

To all those who worked untiringly and unselfishly to finish MEMORIES, and especially to our advisors Mrs. Koch, Mr. Brosse, Mr. Eller, and Mr. Willever, without whom the job could never have been done, I give my deepest appreciation.

To you, the Class of 1960, I proudly present MEMORIES 1960.

Sincerely,

Ken nebel
